Office Network & History

One Organization – Globally Connected

Parisi Grand Smooth Logistics Ltd – PGS Logistics Ltd is a subsidiary of the Francesco Parisi Group of Companies with its Head Office in Trieste, Italy.

The Group was established by Mr. Francesco Parisi (1778-1813) in Trieste and present in Central Europe since 1807. The Group is engaged in Freight Forwarding, Shipping Agency Service, Port Operating, and Infrastructure Management for marine and intermodal rail terminals.

PGS Logistics set up its first Asian office in Hong Kong SAR, in 2003.

PGS Logistics has expanded rapidly and operates now 28 service centers across Asia.

PGS provides its customers with a comprehensive range of services covering all essential segments in logistics and transport.

Group Headquarters – Trieste, Italy

Mission statement

Our Mission is to create new logistics solutions, tailor-made to our customer's needs, and provide top quality and personalized services at a competitive price.

“Bridging Asia and the World”

Group core values

For more than 200 years, Parsi Group's core value have been the foundation of who we are and what we stand for:

- Respect for People
- Highest ethical behaviour
- Be innovative and creative

Airfreight has become an essential factor in the supply chain management to keep pace with the increasing demand for worldwide markets PGS Logistics provides contracted block-space agreements and dedicated air freight solutions such as:

Priority Cargo service:

Our team understands that certain goods need a faster delivery time. PGS Logistics will help you to tailor-make a more flexible and efficient shipping schedule as per specific requirements

Consolidation Services:

PGS Logistics will offer you a variety of cost-effective and time-saving air cargo solutions to move shipments on a global extent, and also will provide regular and frequent flight schedule to ensure flexibility to your needs

Sea and Air:

PGS offers a clear Sea/Air defined schedule so that our clients can confidently manage their supply chain and benefit from the attractive Sea/Air Tariffs

Air Door to Door Service:

PGS Logistics has a global network to provide a reliable Door-to-Door service

Dangerous Goods:

PGS is an IATA Cargo Agent and has a trained team to handle Dangerous Goods. Our offices will guide customers through the whole process as required packing, shipping marks, and documentation.

Sea Freight

PGS offers comprehensive services for global delivery of port to port or Door-Door with quality shipping lines and the support of our worldwide Agency network

Port to Port or Door to Door:

PGS has the knowledge to select the possible transport mode to move your containers to the final destination – as MTO (Multi Modal Operator) PGS Logistics engages various mode of transport such as road, rail, and feeder transport services to achieve the most efficient container door to door rate.

LCL – Less than Container Load:

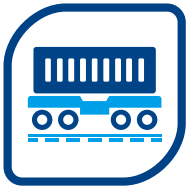

PGS offers LCL consolidation service to current key markets as India, Europe, North America, and Latin America. With an own CFS warehouse, PGS facilitates safe storage, loading, and handling of your merchandise.

Buyer's Consolidation:

It is the management of multiple supplier consignments at origin “consolidation hubs” to reduce the number of smaller shipments and optimize transportation costs.

Break-Bulk Cargoes:

Either shipment from or to Asia, PGS Logistics has the expertise and network to offer you quality breakbulk service. Commodities as farm machinery, mining equipment, windmills, transformers, timber, steel, yacht, vehicles or raw material packed in bundles, barrels, or even grains ores etc. are typical breakbulk cargoes.

Railway and Road Transportation

PGS Logistics has a dedicated Railway Team based in Zhengzhou, one of the central railway hubs in China. PGS ships regular FCL and LCL from China to Europe and vice versa. Also, PGS provides Railway service from/to Mongolia, Kazakhstan, Uzbekistan, Russia, and beyond. PGS selects the most advantageous routes, advice on the most suitable railcars, negotiations with rail transport operators and, designs intermodal solutions, flexible and efficient Road Freight Services. Our Road Freight services include:

- Domestic FTL and LTL service
- Cross Border Service within the Asia zone
- Combined / Multimodal services

PGS is happy to offer individual transport agreements according to our client's wishes and requirements:

PGS 4 step model:

- ✓ Cost-Effective
- ✓ Safe
- ✓ Within the required time frame
- ✓ Less Carbon Foot Print

Project Management

With many years of experience in the OOG Shipping (out of Gauge – special container cargo), Break-Bulk, and heavy lift management, PGS has established a strategic partnership with the significant Shipping-Lines, Break-Bulk and Ro/Ro vessel providers, Railway, and heavy lifts operators.

Break-Bulk Cargoes:

Either shipment from or to Asia, PGS Logistics has the expertise and network to offer you quality breakbulk service. Commodities as farm machinery, mining equipment, windmills, transformers, timber, steel, yacht, vehicles, or raw material packed in bundles, barrels, or even grains ores, etc. are typical breakbulk cargoes.

PGS has an extensive Partner-Network to offer a multimodal Door-Door solution for any Project Cargo

Safe and Efficient:

PGS reviews the project requirements, plans out the most reliable and most efficient way to deliver your cargo through multiple mods of transports. PGS ensures that your project is delivered safely, on-time, and within the budget.

Commodity Project experience:

Oil & Gas, Industrial Plants, Chemicals, Power Generators, machinery, Coal, Vehicles (Bus/Crane)
